filed 757

- 25X1X
1. Coal mines are in operation in Qaf'e Krrabes, located between Tirana and Ellasan. Cable cars are used, and gasoline engines are employed for motor power.
 2. Large copper mines are located in Milot. The processing of the ore is also handled here.
 3. Chrome mines are located at Mali Bulcises. The ore is not processed here, but it is delivered to the docks of Durres by motor truck.
 4. There is a repair depot in Tirana for motor trucks, tanks and small arms, employing about 600 persons. The depot includes about 12 one-story brick buildings, and there are military barracks nearby.

Form with fields: NAME, ADDRESS, PHONE, and a date stamp 2-6-JUN 1978.
